Seek and Destroy

Iron Savior

[Beyond the gate lies a universe of darkness and decay. In millions of years the Shadow has extincted and exploited this entity almost completely, and so they are questing for new hunting grounds. It is necessary to find and dis-able the gate, so the mission is to seek and destroy.]Exploitation - Infestation
Life's ectincted - Stars eclipted
No light in the blackDark encounter - Alien frontier
Suicide mission - Sacrified
We'll never come backKill - we came to kill the night
We're the warriors of light
Fight - we'll fight the evil force
We gonna get to the sourceSeek and destroy
Into the shadow we ride
Riding side by side
Seek and destroy
Defiant we'll attack
Seek and destroy
The center of the blackTermination - Extirpation
Grim incursion - fulfilling the mission
By fire and sword
Hell - we're hiding underground
To Hell we are bound
Die - until the final breath
We ride in defiance of deathSeek and destroy...[Solo Kai - Solo Piet]Black will be tainted by blazing red
The forces of darkness will burn
We gonna get to the center tonight
And we shall never return
Seek and destroy...Riding out to seek and destroy!
