

# Here with Me

## Roxanna

What happens when your eyes  
See him for the first time  
What happens when your soul begins to wake  
Does it feel like heaven's reaching down  
No longer here alone  
What happens when you smile  
And I surrender like a child  
My heart unveiled  
Like the softness of your lips I feel  
Does it make you want to fall in love  
How long I've waited for you  
Here with me  
I need you here with me  
Can't breath, can't hold back these desires  
I've missed you  
I've missed you all my life  
You burn inside this heart of mine  
But now the day has finally come  
I find you here inside my arms  
Won't be a day by without you  
You're here with me  
You're here with me  
I could not love you more  
With you I've seen  
A life full of dreams  
And all my joys come alive  
That I may leave this world  
Knowing that the best times were in your arms  
This is the story of our love
