

I Don't Want It

Montrose

I gave love a chance and it shit back in my face
And I just quit my job makin' toothpicks out of logs
You know it's gettin' thin when your friends turn you in
Better sock away your bread, there's worse times ahead
I don't want it, not today, no no
I don't need it, so take it away, yeah
Flower make me sneeze and prayin' hurts my knees
Funerals make me cry and I don't want to die
Gettin' high's a gas, but stayin' high, I'll pass
Goin' to school's alright but teachers are uptight
I don't want it, not today, no no
I don't need it, so take it away, yeah
I said, I don't want it, not today, no no
I don't need it, so take it away, yeah
I said, I don't want it, not today
I don't need it, so take it away, yeah
I said, I don't want it, not today, no no
I don't need it, so take it away, yeah, yeah, yeah
