

Perfect Form

Cyril Hahn

I'mma let you do this like you've done it before
I'mma let you do this like you've done it before
I'mma let you do this like you've done it before
I'mma let you do this like you've done it before Sky perfect form

I love it when she moves like that
Sky perfect form

I love it when she moves like that
Moves like that
Perfect form

I love it when she moves like that
Sky perfect form

I love it when she moves like that
Moves like that
Perfect form

I love it when she moves like that
Sky perfect form

I love it when she moves like that

Still it's your way

It's my way

Still it's your way

It's my way

Still it's your way

I'mma let you do this like you've done it before

It's my way

Don't seem to get me too far

Still it's your way

I'mma let you do this like you've done it before

It's my way

Don't seem to get me too far

Still it's your way

I'mma let you do this like you've done it before

It's my way

Don't seem to get me too far

Still it's your way

I'mma let you do this like you've done it before

It's my way

Don't seem to get me too far

I felt tongue tied I don't even know my lines

Tongue tied I don't even see the sings

So tongue tied I don't even know my lines

Tongue tied I don't even see the sings

So tongue tied I don't even know my lines

Tongue tied I don't even see the sings

So tongue tied I don't even know my lines

Tongue tied I don't even see the sings

Sky perfect form

I love it when she moves like that

Sky perfect form

I love it when she moves like that

Moves like that

Perfect form

I love it when she moves like that

Sky perfect form

I love it when she moves like that

Moves like that

Still it's your way

I'mma let you do this like you've done it before

It's my way

Don't seem to get me too far

Still it's your way

I'mma let you do this like you've done it before

It's my way

Don't seem to get me too far

Still it's your way

I'mma let you do this like you've done it before

It's my way

Don't seem to get me too far

Still it's your way

I'mma let you do this like you've done it before

It's my way

Don't seem to get me too far

Still it's your way

It's my way

Still it's your way

It's my way

Still it's your way
