

Mama

Godsmack

Oh, Mama, what have I gone and done?
With all these years that I've been gone
My life changed me, way too fast
I don't know, if I could last Help me, find my way
And Mama save me
Help me find today
Mama, please come and save me, oh Oh, Mama, if you could've only seen
Everything I've done and where I've been
If only one thing, I would ask
Why did you let me grow up so god-damn fast? Help me find my way
And Mama save me
Help me find today
Mama, please come and save me, oh There's nothing more that you can do
It's gone beyond what you can help me through
An emptiness has covered me
Oh, Mama, come and save me Help me find my way
And Mama save me
Help me find today
Mama, please come and save me, oh Help me find my way
And Mama save me
Help me find today
Mama, please come and save me, oh There's nothing more that you can do
It's gone beyond what you can help me through
An emptiness has covered me
Oh, Mama, come and save me Oh, Mama come and save me
Oh, save me, no
Oh, please Mama save me
