

# Angels Cry (remix)

## Mariah Carey

                  Mariah:]  
          I shouldn't have walked away  
          I would've stayed if you said  
          We could've made everything OK  
                  But we just  
          Threw the blame back and forth  
                  We treated love like a sport  
                  The final blow hit so low  
                  I'm still on the ground  
I couldn't have prepared myself for this fall  
          Shattered in pieces curled on the floor  
                  Super natural love conquers all  
          'Member we used to touch the sky  
                  And lightning don't strike  
                  The same place twice  
          When you and I said goodbye  
                  I felt the angels cry  
                  True love's a gift  
                  We let it drift  
                  In a storm  
                  Every night  
                  I feel the angels cry  
          C'mon babe can't our love be revived  
          Bring it back and we gon' make it right  
          I'm on the edge just tryin' to survive  
                  As the angels cry  
[Ne-Yo:]I thought we'd be forever and always  
                  You were serenity  
                  You took away the bad days  
                  Didn't always treat you right  
                  But it was OK  
                  I do somethin' stupid  
                  And you still stay with me  
                  But you can only go for so long  
          Doing the one you claim to love wrong  
                  Before too much is enough  
                  You look up  
                  Find your love gone

And  
We were so good together  
How come we could not weather  
This storm and just do better  
Why did we say goodbye  
'Cause lightning don't strike  
The same place twice  
When you and I said goodbye  
I felt the angels cry  
True love's a gift  
We let it drift  
In a storm  
Now every night  
I feel the angels cry  
[Mariah & Ne-Yo:]C'mon babe can't our love be revived  
Bring it back and we gon' make it right  
I'm on the edge just tryin' to survive  
As the angels cry  
Baby I'm missin' you  
Don't allow love to lose  
We gotta ride it through  
I'm reaching for you  
Baby I'm missin' you  
Don't allow love to lose  
We gotta ride it through  
I'm reaching for you  
Lightning don't strike  
The same place twice  
When you and I said goodbye  
I felt the angels cry  
True love's a gift  
But we let it slip  
In a storm  
Every night  
I feel the angels cry  
Oh babe, the angels cry
