

# Christopher Columbus

## Nazz

Once upon a time, I got this idea  
That the world was round like me  
So I asked the Queen for three fine ships  
To sail across the sea  
So I asked the Queen for three fine ships  
To sail across the sea  
Traveling with hoodlums as my crewman  
Made me quite a little scared  
Luckily I found that in the new world  
Somebody was already there  
Luckily I found that in the new world  
Somebody was already there  
I wasn't very sure just what to call them  
Watch the funny clothes they wear  
So I told them, they were Indians  
'Cause I knew they were already there  
So I told them, they were Indians  
'Cause I knew they were already there
