Brutal Tooth

Consumed

If you get the opportunity, you won't take it I don't get it.
It might look better on the other side, you won't go there you're not known there.chorus:
And now it's falling in on you.
If there was anything that I could give you,
you know I'd give it all to you, but you've got to find it for yourself.
If you get the opportunity, you won't take it I don't get it.
It might look greener on the other side,
you won't go there you're not known there.chorus (2x)
No-one else can find it for you!
