Should Be Loved

Blue October

Stop staring, youre the reason I feel so unhappy all the time

Ive given you everything I know how

Your standing on the top of my shoe

keeping me from gaining ground

Im sorry if you feel like I let you downCan you tell me what have I done so wrong

To you

Tell me what am I supposed to doI should be loved by you,

That I know is true

But I cant breathe when youre around!I should be held at night

That I know is right

But I cant breathe when youre around! Youre too scared, Scared of all of it I get that feeling Im talking to the wall

Can you hear me at all

My world was shaking my mind was quaking, my heart kept breaking

I threw it against the wall

Can anyone feel me at allCan you tell me what have I done so wrong... to you

Tell me what am I supposed to do

I got a feeling, youre falling out of love with me

Tell me who am I supposed to be

I should be loved by you

That I know is true

I cant breathe when youre around!I should be held at night

That I know is right

I cant breathe when youre around!!

Look I cant breath!
