

# Army Now

## Futurisk

We will destroy the things that we detest  
We've chosen to kill the Reds  
In the process there'll be many of our own dead  
"Can't help that" the President said.

Gonna take the cream of the crop.  
Gonna send 'em and we'll never stop.  
Gonna fight until they drop  
Gonna kill 'til they're country's on top, yeah.

You're in the army now  
You're in the army now  
You're in the army now  
You're in the army now

Someone said we're all turning red  
"Can't have that" a famous General said  
Someone said nothing to live for  
Except WAR.

You're in the army now  
You're in the army now  
You're in the army now  
You're in the army now

Now it's all up to Him  
Chance that is. you're all His.  
Now it's all up to Him  
Chance that is. you're all His.

All alone but we know we're Right  
We're in the dark but with an infra-Red sight.  
You and I may never be the same.  
Aim, fire! The trigger's the human brain.

You're in the army now  
You're in the army now  
You're in the army now  
You're in the army now

Now it's all up to Him  
Chance that is. you're all His.  
Now it's all up to Him  
Chance that is. you're all mine.

All alone  
All alone  
All alone  
All alone.
