

# You Were Never Loverlier

## Vanna

My amber furnace breathes  
I've got an ear to the wall.  
If we sat forever in this house  
the wind would take us.  
so take me  
Ride all night.  
Like a bullet from a gun.  
Ride all night.  
(Get to me)  
Your eyes don't lie.  
Take me, take me.  
Goddamn perfect eyes!  
Spill the embers,  
Fan the fire.  
I'll fill it floor to ceiling.  
Escape with a price on my head  
I'm a wanted man!  
A wanted man!  
I'll meet you in the front seat.  
Headlights off.  
I'm a fugitive, a victim and, a criminal.  
We'll make our getaway  
Invented colors,  
To hide us in the dark.  
Hide us in the dark
