

Can't Believe It's Over

Gareth Gates

So here I am, head in hands
Now you've gone, I don't understand
Said your peace walked out the door
Said you couldn't stand one second more
And I can't believe it's over
I've never been so high
And I can't believe it's over
I forever wonder why

And the stars, they're so cool
Make me look like a fool
They're just watching me, watching you

And finally, you looked at at me
Said you're all out of sympathy
You tried your best, got so far
And in the end, oh you got too far
And I can't believe it's over
I've never been so high
And I can't believe it's over
I forever wonder why

And the stars, they're so cool
Make me look like a fool
They're just watching me, watching you

Look up to the stars, look up to the stars, look up to the stars

And the stars, they're so cool,
Make me look like a fool
They're just watching me, watching you
They're just watching me, watching you
