Chloroform

Porcupine Tree

Little retrograde
Wonder where you are
Another motorcade
Under radar
A boy in borrowed clothes
Knows he is a girl
Shards of light come down
Stillness in the air

Big sleeper, your deeper
Too deep for me, yeah
Speak clearer, can't hear you
I'm going under
On the mountain side
Hold me in your gaze
But it's over now
'Cos I got kids to raise
