

# Black Sunshine

[Mara5](#)

Gripping the wheel  
His knuckles went white with desire  
The wheels of his Mustang  
Exploding on the highway  
Like a slug from a forty-five  
True death, 400 horsepower  
Of maximum performance  
Piercing the night  
This is black sunshine  
Yeah, move me in the silence Baltic motorway  
Hang me on the edge before I fall away  
Apocalypse is dawnin? actions on the mile  
Can do revolution, earth to the river Nile  
Sweet?n the ride black sunshine  
Sweet?n the ride, yeah  
Sweet?n the ride black sunshine  
Sweet?n the ride, yeah  
Yeah, cry a river cosmic, moon in a Scorpio  
Feel her body breathe, acid radio  
Tell me that you like it, when I?m going down  
Tell me that you like it, move to the speed of sound  
Sweet?n the ride black sunshine  
Sweet?n the ride, yeah  
Sweet?n the ride black sunshine  
  
Sweet?n the ride, yeah  
Slide into, I said, "Forty-four cool heart can hypnotize"  
Dream into infinity, I turned the love to lies  
Crawl across the water, wave and sink into the sea  
Reflecting onto everything, that you can never be check out  
Yeah, to the devil a daughter  
Comes 2000 worlds away, yeah  
Born to lose the love you choose  
Destroy another day, check out  
Sweet?n the ride black sunshine  
Sweet?n the ride, yeah  
Sweet?n the ride black sunshine  
Sweet?n the ride, yeah  
Stare into the TV kiss off the pain

Wonderland is falling  
No sing, no rain momentary  
Damage into the high drift  
Me to the circuit sky  
Finally nothing moves high noon  
Black top rolling below the asphalt drive  
A concrete fascination scraping the edge of nothing  
This is black sunshine
