

# What I've Seen

## Michael Franti & Spearhead

Politicians manipulate minds,  
And public opinion is either left or it's right,  
No progression, we just argue and fight,  
For centuries, we've been dig and devise,  
And every time I open my eyes,  
It seems my nightmare's come back to life,  
I'm singing, well, if you saw what I have seen,  
You would get lost in between,  
What is real and what's just a dream,  
I'm singin', well, if you saw what I have seen,  
The heart of man is just blackened with greed,  
Wanting more than he will ever need,  
Cancerous from the root to the seed,

Gain a fortune, but your soul is the feed,  
And every time I open my eyes,  
It seems my nightmare's come back to life,  
I'm singing, well, if you saw what I have seen,  
You would get lost in between,  
What is real and what's just a dream,  
I'm singin', well, if you saw what I have seen, yeah,  
Well, if you saw what I have seen, yeah,  
You would get lost in between, ah,  
What is real and what's just a dream,  
I'm singin', well, if you saw what I have seen,  
What I have seen, yeah,  
What I have seen, yeah,  
What I have seen.
