

# Joyous

## Pleasure

Throw away your troubles and leave your blues behind  
Free your frustrations and have a jamming good time  
Come on and clap your hands now and let yourself unwindEverybody together in a universal mind  
Get off of that ego into a higher place  
Check out my music dig my magic spaceThe way I like it, love to see you doing your thing  
The way I like it, makes me want to singThe way I like it, love to see you doing your thing  
The way I like it, makes me want to sing
