## **Final Sleep**

## The Defiled

Waiting for my turn

Man I've got time to burn

Into the madness

Looking for miracles

Suspended in nothingness

Into the dark we rollWatching a dream within a dream

Oh is this happening?

This is not real to me

We're dead for a day

Gone forever

So take me to my final sleepSelfish Anxiety

Burning inside of me

Taken for granted

It's almost over nowOh no, it's not enough

With so many years gone by

Could never think, there is no sound

Try to convey this truth

This is not real to me

We're dead for a day

And gone forever (forever)I am not chasing a saviour

I was not looking for truth

No point in looking for answers

They will find youNow it is my turn

I got no time to burn

Sick of this madness

There are no miracles

Suspended in nothingness

Into the dark we rollCould never think, there is no sound

This is my last goodbye

This is not real to me

We're dead for a day

And gone forever (forever)I am not chasing a saviour

I was not looking for truth

No point in looking for answers

They will find you (They will find you)

They will find you (They will find you)

They will find you (They will find you)

But they'll blind you

When you're gone
