

Going Out Your Way

O'Ryan

[Chorus]

We both got somethin

We wanting

Whose gonna get what they want

I'm tryin give you thuggin and huggin

But everything else is off

You know about my paper

And my nature

Second when it comes to dough

You can make me look good and feel good

And all of that's good for O

Plus your going out your way going out your way to turn me on

I got my mind on my money!

Going out your way going out your way to turn me on

I got on my mind[1st Verse]

As soon as I walked through the door I knew you somethin

I'm looking for a girl, the one thats already gotta somethin

You know he doesn't have a face when he's tryin ta hustle

See you in here tryin ta flex ya bubble

Not ta bust ya bubble

But girl I can make it trouble

Be like burning candles having you chanting numba's

Take you on the highest level and drop you off[Chorus]

We both got somethin

We wanting

Whose gonna get what they want

I'm tryin give you thuggin and huggin

But everything else is off

You know about my paper

And my nature

Second when it comes ta dough (secod when it comes ta dough)

You can make me look good and feel good

And all of that's good for O

Plus your going out your way going out your way to turn me on

Going out your way going out your way to turn me on

(just because you like the way my rims is rimed up)

Your going out your way going out your way to turn me on

Going out your way going out your way to turn me on[2nd Verse]

I'll tell you a lie and tell you I lied

Just see a little fire in eyes
No I don't really take it serious
When you say that its good for the both of us
Beautiful far from lane
And you gotta brain
God forbid is I did bid would you change
My last girl's a dime
But it only one time
And like a snitch I had to drop a dime
