

Levity

HELENA

(feat. Shawnee Taylor)

Take a breath
Look around and take it in
And feel the earth move
Deep within
It's all around you
All around you

Close your eyes
Realize who you are cause what you do
Inspire me to come alive
I'm in the mood to revolutionize
Without a compromise
Of who we are

Cause we just want to be
Free from every tragedy
Can't you feel the levity
Take control

Through it all
Find a way to free yourself
And open your heart
Break down the walls
The lights around you
Lights around you

And as you walk the line
Look ahead
Leave everything that hurts behind
You have to keep on going cause we live to grind
We revolutionize without a compromise
We just

We just want to be
Free from every tragedy
Can't you feel the levity
Take control

And we just want to be
Free from negativity
Canâ€™t you feel the gravity
Letting go
