Frontline

Gavin Rossdale

I haven't been to hell and back
'Cause baby, I'm still here
Standing on the frontline
Devil gotta do our time
I miss my wife and family
They move heaven and earth for me
I hold on to what I'm the missing most
You and baby and the holy ghost
Whatcha need is just what you deserve
Whatcha need, whatcha need
Don't wait up baby, don't wait for love
Don't wake up baby, I'm gonna bring you my love
In the arms of friendly fire
Everyone has the same desire
All the heroes so long gone
Gotta have the spirit and a loaded gun
Hand shakes, my heart is empty
I go wherever they send me
Say it loud when you say freedom
This is the time for the killing season
Whatcha need is just what you deserve
Whatcha need, whatcha need
Don't wait up baby, don't wait for love
Don't wake up baby, I'm gonna bring you my love
Don't wait up baby, don't wait for love
Don't wake up baby, gonna bring you my love
Gonna bring you my love, my love
Gonna bring you my love, hey
Yeah my love, gonna bring you my love, hey
I stick around
I put everything in its place
I stick around
Everywhere I see your face
Don't wait up baby, don't wait for love
Don't wake up baby, gonna bring you my love
I'm gonna bring you my love
I'm gonna bring you my love, yeah
