

Sincere

[Nadine Renee](#)

Why can't I understand you?
The path you're on I can't get to
Why can't I feel you in my heart?
We're drifting so far apart Don't make it up, please be sincere
'cause I just can't sleep at night, since you're not here Sometimes I want to fucking scream
Scream 'till I have no voice
Have someone to hold me
Tell me there's another choice Take my hand I'm here for you
Let me in, we'll make it through Sometimes I want to fucking scream
Scream 'till I have no voice
Have someone to hold me
Tell me there's another choice
so... Take my hand I'm here for you
Let me in, we'll make it through Why can't I understand you?
The path you're on I can't get to
Why can't I feel you in my heart?
We're drifting so far apart Don't make it up, please be sincere
'cause I just can't sleep at night, since you're not here Don't make it up, just be sincere
I swear I'll do my best to get back on your path
