

# Daydreams

## See You Next Tuesday

I could not sleep last night  
That's not your problem  
I've got my problems  
I watched you sleep last night  
That's not your problem  
I've got my problemsIt's hard to understand  
It gets so hard to be your man  
I would give you anything  
But I don't have anything  
Just these crazy daydreams  
And they are not worth anythingI got so high last night  
That's not your problem  
I've got my problems  
I tried to forget my life  
That's not your problem  
I've got my problemsIt's hard to understand  
Take your time, take your time  
Hey girl, I'm so glad  
That we could have this time together  
So I could let you know  
Just exactly how I feelYa see, it's been been hard to talk to you  
'Cause you never listen, you're so selfish  
You never shut up and you know  
I don't have any money  
And I can barely pay my billsBut you don't care  
You're so selfish  
What do you want from me?  
It's hard to understand  
It gets so hard to be your man
