

# Christine

## Willie Wisely Trio

Hear her coming 'bout 5 miles away  
That girl is something, know she gonna make my day  
Ah, she is so fine, a real good friend of mine  
I just wanna jump her bones all the time  
See her walking, she knows all the moves  
Fortune cookie, send your toes up in your shoes  
Oh, you can't believe what she got up her sleeve  
Likes me fine and that's just fine with me  
Christine, going out of my mind, like to drive me wild  
Red hot mama, ain't no lie, so glad I caught your eye  
Christine, you put your hands on me, I got electric blood  
Come on over and do it again, just like a bad girl should  
She moves like a rattlesnake made out of razorblades  
That girl can't help it, just the way she's made  
I would run all 'round the world, just to see that girl  
She sure loves playing with the 'Ace of Spades'  
Christine, drive me out of my head, like to drive me wild  
Red hot mama, ain't no lie, so glad I caught your eye  
Christine, you put your hands on me, I got electric blood  
Come on over and do it again, just like a bad girl should  
Christine, drive me out of my mind, like to drive me wild  
Red hot mama, ain't no lie, so glad I caught your eye  
Christine, you put your hands on me, I got electric blood  
Come on over, do it again, just like a bad girl should  
Christine, Christine  
Christine, I just wanna jump her bones  
She's my baby
