Wait for Tomorrow

Blessthefall

They said that I can't change without you.
That I cant change without you.
That I cant change without you.Those nights I can't sleep.
I'm stuck here.
Lost in your dreams.
I'm stuck in here.Like why can't I get much better?
Like why can't I get much better?So swipe it and take it away.
And never, never lie to me.
So swipe it and take it away.
And never, never lie to me.The only reason my eyes close.
So they open with you by my side.Like why can't I get much better?
Like why can't I get much better?So swipe it and take it away.
And never, never lie to me.
So swipe it and take it away.
And never, never lie to me.I wait for tomorrowSo open your eyes my darling.
Today's a new day.Like why can't I get much better [x2]
Like why can't I [x2]
Get better
