

# Overnight

## Hectix

Overnight, overnight, overnight, overnight, overnight  
I met you on the Sunday night by that Monday morning  
Overnight, although I wondered  
Overnight, what's wrong with me  
Overnight, love walked right in and shook me like a tree  
Oh, I sat down when I got home and gave my heart a warnin'  
Overnight, I dreamed about you  
Overnight, while count the sheep  
Overnight, I felt for you so hard I couldn't sleep  
All night long I wished you were my own  
And when I came to I was huggin' you like a hound dog hugs a bone  
All night long my heart was standing still  
And when I got up I pitched myself to see if this was real  
Then you came by and told me dear the same sweet Monday morning  
Overnight, you dreamed about me  
Overnight, you loved me too  
Overnight, we found the dream that really did come true  
All night long I wished you were my own  
When I came to I was huggin' you like a hound dog hugs a bone  
All night long my heart was standing still  
And when I got up I pitched myself to see if this was real  
Then you came by and told me dear the same sweet Monday morning  
Overnight, you dreamed about me  
Overnight, you loved me too  
Overnight, we found the dream that really did come true  
Really did come true, that really did come true  
Overnight, overnight, overnight, overnight, overnight
