

Bitch We Got a Problem

Korn

For every person I've tried to be
There's another dead inside
I love you so much I'm never there
I'm always with you but never cared And you move in a hostile way
Like you're recently wounded
I reach for your wrists to feel the pulse
They're feeling yourself for both of us We got a problem, it's plain to see
We got a problem Which one, which one of you is into me?
Which one, which one of me is into you?
Real close schizophrenic I fear
Say how many voices you hear Which one, which one of you is into me?
Which one, which one of me is into you?
We are schizophrenic, don't start
No matter 'til I fuck it solo All the searching we do inside
Is a futile attempt to
This is what we're meant to never know
It's all screwed up how the river flows And I know that you tried to hide
To send to yourself but
Was I the beast that sucked into you?
A real dark victim inside of you We got a problem, it's plain to see
Bitch, we got a problem Which one, which one of you is into me?
Which one, which one of me is into you?
Real close schizophrenic I fear
Say how many voices you hear Which one, which one of you is into me?
Which one, which one of me is into you?
We are schizophrenic, don't start
No matter 'til I fuck it solo Not your fucking nature
And you, and you, and you
And you, and you, and you And this is me, and me, and me, and me
And me, and me, and me, and me, and me
Bitch, we got a problem Which one, which one of you is into me?
Which one, which one of me is into you?
Real close schizophrenic I fear
Say how many voices you hear Which one, which one of you is into me?
Which one, which one of me is into you?
We are schizophrenic, don't start
No matter 'til I fuck it solo Bitch, we got a problem
Yeah, we got a problem
Bitch, we got a problem

We got a problem
Problem, problem, problem, problem, problemWe got a problem
Yes, bitch, we got a problem
We got a problem
We got a problem
Problem, problem, problem, problem, problem
