Luv Led Me 2 U

RL

I never really had much direction you know
This time I followed my heart and I found youI lay in bed holding my pillow close
Feeling so alone
With an emptiness deep in my soul
Looking for someone to hold
Then I found you babyI never fell in love like this right here
I never loved someone like you my dear
Never saw directions that were so clear
Luv led me 2 you, luv led me 2 youMy heart had been broken many times
Love made me hurt inside
But you came into my life
Made every day like valentine's
Now I understand why
I weathered the storm for my sunshineI never fell in love like this right here
I never loved someone like you my dear
Never saw directions that were so clear
Luv led me 2 you, luv led me 2 youI never fell in love like this right here
I never loved someone like you my dear
Never saw directions that were so clear
Luv led me 2 you, luv led me 2 youAll my sunshine that warms [Incomprehensible]
A rare flower I'll never let you go
The air I breathe like a summer breeze
You saved my heartBaby, I know you heard about my past
But it took all of those to break my heart
For me to be stronger for you
I know what you're thinkin'
But no, you're not just another one
Just meant to beI never fell in love like this right here
I never loved someone like you my dear
Never saw directions that were so clear
Luv led me 2 you, luv led me 2 youI never fell in love like this right here
And I never loved someone like you my dear
Never saw directions that were so clear
Luv led me 2 you, luv led me 2 youLuv led me 2 you
Luv led me 2 you
Luv led me 2 you
Luv led me 2 youI never fell in love like this right here
And I never loved someone like you my dear
Never saw directions that were so clear

Luv led me 2 you, luv led me 2 youI never fell in love like this right here
And I never loved someone like you my dear
Never saw directions that were so clear
