Angel

Groove Theory

It was time
Lovin' all the girls was fine
But she came along
Young yet wise
Kinda dropped out of the skies
And blew his mind
Yes, she blew his mindHe could not believe it
It was everything he needed
It was plain to see that
She was some kind of angel
Ooh, was some kind of angel
Perfection in his eyes for the rest of his life, yeahCould she be his
After the first time he met her?
He was already naming their kids, yeah
Somethin' like this
Is just what Papa told him he should never ever miss
Would be so nice to wake up to her
Every morning and every night, yeah
It feels so right
And in his heart he knows that she's the one
Who will one day be his wifeHe could not believe it
It was everything he needed
It was plain to see that
She was some kind of
Angel
Ooh, was some kind of angel
Perfection in his eyes for the rest of his life, yeahHe could not believe it
Everything he needed
It was so plain to see that
She was some kind of
Angel
Ooh, was some kind of angel
Perfection in his eyes for the rest of his lifeShe was an angel
Some kind of angel
Angel
