I've Gotta Know

Sloan

I gotta know what's your secret
I gotta know where you keep it
Coz it's causing a major reaction
And driving me to distractionYou've got a way of making me feel insane but
I don't think that you do it on purpose
But I've gotta know
I've gotta know
I've gotta know
I've gotta know
I've gotta know
I've gotta knowI gotta know where this is going
It drives me crazy not knowing
Sometimes it's off then it's on
It's like you're here then you're goneYou've got a way of making me feel insane but
I don't think that you do it on purpose
But I've gotta know
I've gotta know
I've gotta know
I've gotta know
I've gotta know
I've gotta know
