I Fell In Love

The Roches

I know there was something about you that I liked, yeah
But I only realized it when I spied you
At your mother's house last week
I'd only ever seen you on your bike, yeah
I thought you were a slick affected
Switch blade flashing motorcycle freakI never understood, you slur your words why
You walk that mean and tough guy walk
Of all the other guys who hang around
The kind of animal that goes in herds, why
But at you mother's house last Sunday dinnertime
With your defenses downI fell in love, I fell in love, I fell in loveFlowers in your hand
Such a fine young man
Dressed up a suit and tie
Hear my love cryI fell in love, I fell in loveI'm probably not the kind of girl you think you want, why
I saw you with that slick effective
Switch blade flashing motorcycle blonde
I've got to make you turn around and see me
I saw you at your mother's house
I know you have it in you to like meSuch a fine young man
Catch me if you can
Don't be such a tough guy
Hear my love cryI fell in love, you fell in what?
