Wintertime

Sophie Barker

You only come and see me in the winter time
Snuggle up behind me to keep from the cold but once the first light
Shows it's face I can't find you any place I 'm all alone
And when you are near you say you never want to leave holding me
Close making me believe that maybe one day you wont leave me
Alone, all aloneAnd if I cry don't look on by just be here for a while
And in my time I will shine and you will follow meDawn is nearly breaking and the warmth fills the room I know as I lie
Here you'll be gone soon and as hard as I try you'll still say goodbye
And I'll be alone all aloneAnd if I cry don't look on by just be here for a while
And in my time I will shine and you will follow me...
