

# Everybody (Get Down)

Montell Jordan

(Can I get down?)  
Yes, you can  
(Can I turn it around?)  
Um hmm  
(Can I work that thing)  
Work it, babe  
(Get down, get down)I'm checking honey and she's licking her lips  
Dancing with her friend, but looking at me  
And if I'm not mistaken this is an invitation  
To participate with me, she and she, oh yeahAnd now they're waiting for me  
But they'll wait a little longer  
I played it oh so pimplly  
'Cuz I might see something better  
And I'll just slide in between 'em  
I gotta let these shorties know  
I'mma holla at you later  
But right now I got's to flow, I got's to flowEverybody get down  
DJ start to get busy  
Everybody get loud  
Ladies start to get freaky  
Niggas startin' to act wild  
Let me know if you're with me  
Everybody get down  
(Work that thang)Just like I thought, the night keeps getting better  
I sees this honey, too hot to miss  
She was sitting in a chair with her legs slightly spread  
Showing just how off the chain she is, yeahAnd what she's showing to me  
You could call it basic instinct  
I played it oh so pimplly  
I told her when and where to meet me  
See playboy ain't that anxious  
So I just let honey know  
I'mma twist her back up later  
But right now I got's to flow, flow, flowEverybody get down  
DJ start to get busy  
Everybody get loud  
Ladies start to get freaky  
Niggas startin' to act wild  
Let me know if you're with me

Everybody get down  
Everybody, everybodyEverybody get down  
DJ start to get busy  
Everybody get loud  
Ladies start to get freaky  
Niggas startin' to act wild  
Let me know if you're with me  
Everybody get down  
You don't have to partyA party ain't a party unless you got a shorty  
Movin' and shaking that ass on you  
It's so good, it's so right  
Girl, I'm feeling you tonight  
And the time is now so everybody can get down(Can I get down?)  
Yes you can

Yes you can  
(Can I work that thang?)  
Go 'head baby  
(Get down, get down)Oh, can I get down?
