

# He Ain't Even Cold Yet

Gretchen Wilson

Look at her, my God, she's dancing  
Out there romancing in her new lover's arms  
If he were here to see how she's acting  
If he could hear her laughing  
It would break his broken heart  
'Cause he ain't even cold yet  
The tears haven't dried yet  
It's not written in stone yet  
As far as he is concerned  
He ain't even cold yet  
The fire's still burning  
She laid his love to rest, showing no regrets  
Lord, he ain't even cold yet  
If he found out, Lord, it would kill him  
'Cause he is still living in yesterday  
Whoever tells him that she is not grieving  
Would just be leaving flowers on his grave  
But he ain't even cold yet  
The tears haven't dried yet  
It's not written in stone yet  
As far as he is concerned  
He ain't even cold yet  
The fire's still burning  
She laid his love to rest, showing no regrets  
Lord, he ain't even cold yet  
She laid his love to rest, showing no regrets  
And he ain't even cold yet
