

# You're The One I Miss (this Christmas)

[Mxpx](#)

Light the candles and get me holly  
Start the fire and come sit next to me  
All I really need this Christmas  
Spend time with the only one I miss  
You're the one I miss this Christmas  
You're the one I miss this Christmas  
You're the one I miss this Christmas  
Let's drink hot chocolate and eat some candy  
Let's open up all our presents early  
All I really need this Christmas  
Spend time with the only one I miss  
You're the one I miss this Christmas  
You're the one I miss this Christmas  
You're the one I miss this Christmas  
We'll string up the lights  
And we'll decorate the tree  
But the best things at Christmas time  
Are free  
You're the one I miss this Christmas  
You're the one I miss this Christmas  
You're the one I miss this Christmas  
You're the one I miss this Christmas  
You're the one I miss this Christmas  
You're the one I miss this Christmas  
You're the one I miss this Christmas  
You're the one I miss this Christmas  
You're the one I miss this Christmas
