

Don't Give Up Hope

Third Day

This world just keeps on getting crazier
And crazier every day, you're so afraid
Sometimes it feels like it's chasing your sanity away
And you start to pray and He'll help you find your way
Don't give up faith, don't give up hope
There's always something better
Waiting around the corner
Don't give up now, please don't let go
Well, it can't be like the ending
Could just be the beginning
Don't give up hope
Your life is spinning like a rocket
That's gone out of control and you let go
You're slowly losing your confidence
Your wounded soul, well, I hope you know
I can help you find your way, yeah
Don't give up faith, don't give up hope
There's always something better
Waiting around the corner
Don't give up now, please don't let go
Well, it can seem like the ending
Could just be the beginning
Don't give up hope, don't give up hope, now
Don't turn around, keep on moving
Find your faith, you'll be doing alright now
Ah, don't look back, keep on moving
Find your faith, you'll be doing alright now
Oh, don't look back, keep on moving
Find your faith and you'll be doing alright now
Yeah, don't give up faith, don't give up hope
There's always something better
Waiting around the corner
Don't give up now, please don't let go
Well, it can't seem like the ending
When it's just the beginning
Don't give up faith, don't give up hope
There's always something better
Waiting around the corner
Don't give up now, please don't let go
Well, it can't be like the ending
When it's just the beginning
Don't give up faith, don't give up hope, now
Keep on moving, keep on moving
Yeah, yeah, oh
