

# Astronauts

## One Eskimo

You float like a baby  
Trying to escape this covered in tar  
But every recording  
You keep distorting like an astronaut  
It's funny old world full of headaches in turn  
So whenever you need space  
I guess it's okay  
When you're floating away  
To feel nothing at all  
We can be astronauts  
If you want to get out of here  
You float like a baby  
Looking for safety somewhere on mars  
But if I'm mistaken  
Your body's in England but your head's in the stars  
It's funny old world full of headaches in turn  
So whenever  
you need space  
I guess it's okay  
When you're floating away  
To feel nothing at all  
We can be astronauts  
If you want to get out of here  
We can get out of here  
We can be astronauts  
We can be astronauts  
It's funny old world full of headaches in turn  
So whenever you need space  
I guess it's okay  
(Ay, ay, ay)  
When you're floating away  
(Ay, ay, ay)  
To feel nothing at all  
We can be astronauts  
If you want to get out of here  
We can get out of here  
We can be astronauts  
We can be astronauts
