

# Steady Me (feat. Aaron Cole)

## Hollyn

Got all these emotions, don't know how to feel  
Sometimes it's like I'm living on a ferries wheel  
Torn between the fiction and what is real  
Oh, Oh

I hear you whisper to me to give you all control  
Some days it's harder for me just to let it go  
I just need to step out and step into your flow  
Oh, Oh

No matter what the pressure, pressure  
You will always be the answer, answer

Only you know how to steady me  
Ready my heart for everything that's coming my way  
Help me trust that you're ahead of me  
Going before my feet with every step I take  
Only you can calm a storm  
And only you can restore me when I'm worn  
You steady me, only you can steady me, steady me, me

Everybody wants to tell me what I need to do  
The only one I need to be listening to is you  
So I'ma take your hand and I'ma let you lead me through  
Oh

No matter what the pressure, pressure  
You will always be the answer, answer

Only you know how to steady me  
Ready my heart for everything that's coming my way  
Help me trust that you're ahead of me  
Going before my feet with every step I take  
Only you can calm a storm  
And only you can restore me when I'm worn  
You steady me only you can steady me, steady me, me

My energy gone too  
I'm feeling like I'm through  
These problems weighing me down

So I'm trusting all in you  
I'm serving you until the death of me  
Even if my light gets dim I know he's there for me  
I just put this in your hands and it's finished, oh  
And you never let me down, so I know we winning, oh  
And only you can keep me calm  
Only you can see me through  
Only you can set me free  
Cause

Only you know how to steady me  
Ready my heart for everything that's coming my way  
Help me trust that you're ahead of me  
Going before my feet with every step I take  
Only you can calm a storm  
And only you can restore me when I'm worn  
You steady me, only you can steady me, steady me, me  
Only you can steady me, steady me.
