People Like Us (feat. Garret Rapp)

Palisades

Do you remember the first time that we met?
You were cold as a ghost in a basement
You wanted nothing to do with me or the world around you

You said Iâ€™m not someone you wanna waste your time on
I said youâ€™re not someone I wanna say goodbye to

Funny feeling how it all can flip
Picking you up really picks me up
Look at how we turned a spark into a flame
Lighting you up really lights me up
And all the pills and sympathy
Wonâ€™t replace what you know you need
I know it feels like youâ€™ve got nothing
Bet you didnâ€™t know you were all I see

You said youâ€™re damaged merchandise
and Iâ€™ll pay the price, if I let you in
You can go and try to push it off all you want
But Iâ€™m never giving up
Iâ€™ll show you what youâ€™re worth

You said Iâ€™m not someone you wanna waste your time on
I said youâ€™re not someone I wanna say goodbye to
If youâ€™re a fire then I wanna burn

Funny feeling how it all can flip
Picking you up really picks me up
Look at how we turned a spark into a flame
Lighting you up really lights me up
And all the pills and sympathy
Wonâ€™t replace what you know you need
I know it feels like youâ€™ve got nothing
Bet you didnâ€™t know you were all I see

Have I accepted that I will never trust again
When I can't even seem to trust myself?
How am I ever gonna trust again?
Why do I stay on the roads that keep leading me right back through the hell I've been?
Thereâ€™s a difference between giving up

And knowing when you've had enough
Maybe I'm addicted to you because the best kinds of drugs are other people like us

I found out the best kinds of drugs are people just like us

Funny feeling how it all can flip
Picking you up really picks me up
Look at how we turned a spark into a flame
Lighting you up really lights me up
And all the pills and sympathy
Wonâ€™t replace what you think you need
I know it feels like youâ€™ve got nothing
Bet you didnâ€™t know you were all I see
