5th Season

Paul Weller

A storm is raging inside my head
The wind is howling such thoughts of death
Why am I so lost and confused?
Can't find the reason for feeling blueThere's so much I can't explain
Hope this season changes soonThe lightning strikes and the mountains fall
The sea's come crashing against it all
Hang on tight in the tides of change
And get your bearings from those still saneThere's so much I've yet to feel
Hope the seasons changes soonThe serpent tangles in the lion's claw
A cloud of darkness hangs over all
As fires burn in search of sky
So blow embers like fire fliesHoping love is where they'll lie
And the season changes soonThe lightning strikes and the mountains fall
The sea's come crashing against it all
Hang on tight in the tides of change
And get your bearings from those still saneHoping love is where they staying
Hope the seasons changes soonHoping love is where they'll lie
And the season changes soon
