Endlessly

Total Touch

It's time to realize I'm on my own
It's time to leave my childhood dreams alone
Now I belong - know right from wrong - because of you
I've learned how - how to break free
I'll make a stand and shape my destiny
I'll use the faith that you instilled in meAlthough we're far apart
we will always be
beating as one heart
together endlesslyI wanna thank you for the precious gifts you've given me
You taught me selfrespect - humanity
You gave me strength when I felt weak when I felt down
Right by my side - always around
I cherish every moment that we shared
Yes, every day I know how much you caredAlthough we're far apart
we will always be
beating as one heart
together endlessly
