

# No Vacation Land

## We Are Monroe

Verse:

Silver stars are hanging high above the west coast  
watch as the world goes round as they shine  
With your mind, so easily inclined,  
to shut down defences, give up the time it's not what you need  
but more in line with what you see so won't you tell me why you're not  
hotter than the sun  
trending all the latest,  
liking everyone  
and as hard as it's to be,  
it's not for me

It's just a game and it all comes free Pre-chorus:

When your spending your life,  
fearing the truth  
watching the walls close down around you Chorus:  
is this what you want?  
what you see?  
well it's no better than before  
lost in the lies

seems to me your trying harder than you should Verse:

Come right up and take a step into the freak show  
watch as the the wheels go round as they shine  
and our rides so cleverly disguised  
built and designed to shut down your mind Pre-chorus:  
it's not what you need  
but more in line with what you see close in around you Chorus:  
this what you want  
what you see  
well it's not better than before  
lost in the lies  
seems to me you're trying harder then  
Cause I know what it's like  
what it's like to be seen again  
but it's not all you'll lose,  
all you'll lose,  
all you'll lose along the way
