Ed #5

Green Apple Quick Step

The baby can
Talk to me
In his hand
He holds the future
A broken key
That fits tomorrow
All welomce to new world cityJust a friend
A rotten kidNow a man
H lives in venus
Not the palce
You remember
The milky war
Killed the race
That won the price
All of spaceJust a friend
A rotten kidHe's trying
To get me
In trouble
For lying
I think he's
Plotting and planting
Flowers in my
Head
In my headJust a friend
A rotten kid
