

# You're the One

Natalie

You're the one that I'm always gonna love  
And you're the one that I'm always thinking of  
It's so wonderful to know, beautiful to know  
You're the one You're the one that I'm always gonna love  
And you're the one that I'm always thinking of  
It's so wonderful to know, beautiful to know  
You're the one I remember the first time  
That I really looked you in your eyes  
I was thinking to myself  
There will never be nobody else, yeah And from the moment that we touched  
You had me wide open with your love  
The simple way you grabbed my hand  
I'm so grateful that you are my man, yeah I never wanna lose you  
I'd do anything at all  
Baby boy, you know I really do need you  
I'm always here when you call You're the one that I'm always gonna love  
And you're the one that I'm always thinking of  
It's so wonderful to know, beautiful to know  
You're the one You're the one that I'm always gonna love  
And you're the one that I'm always thinking of  
It's so wonderful to know, beautiful to know  
You're the one Now my whole life has changed  
Since you came around boy, it's so great  
The way you make me feel within  
I'm so thankful that we're more than friends, yeah And when you hold me, it's so real  
Remember when you told me how you feel  
Staring face to face  
It's such a blessing, I'll do what it takes yeah What it takes to keep you  
I never wanna let you go  
Baby boy, you know I can't be here without you  
I cherish every day we grow You're the one that I'm always gonna love  
And you're the one that I'm always thinking of  
It's so wonderful to know, beautiful to know  
You're the one You're the one that I'm always gonna love  
And you're the one that I'm always thinking of  
It's so wonderful to know, beautiful to know  
You're the one I can't wait to be  
Alone with you, close to you  
I just wanna say

With you around I feel okay You make my life complete  
I'm telling you, I'm needing you  
I can't wait to be  
Alone with you, close to you You're the one that I'm always gonna love  
And you're the one that I'm always thinking of  
It's so wonderful to know, beautiful to know  
You're the one You're the one that I'm always gonna love  
And you're the one that I'm always thinking of  
It's so wonderful to know, beautiful to know  
You're the one
