Without Light, I Am

Danzig

I am soulless and proud
That I'm not like your kind
I delight in watching you drown
As this world drags you down
Down, shine darkest star
Snake bone chain hugs your neck
Matters not, your curse awaits
When you see me stand aside
If I call you, pray to hide
Can you offer your last breath?
Smile of blood, lips of death
Down, shine darkest star
Without light, I am
