Bitter Regret

Dokken

Darlin' -don't let me go
Until the last train rides
I wanna stay with you
When the morning comes
And it's time to rise
But I can't lift my head - baby let me die
Release the sorrow - deep within my eyes
Life's only borrowedChorus
Don't build your world with bitter regret
"cause I still feel it's not over yet
What we've done we'll have to forget
Or all you'll reap is bitter regretWonderin' -how this came to pass
Why my future runs through the hourglass
Talk to me - "cause I can't lift my head
Anti-social suicide lyin' on my bed
Release the sorrow - deep within my eyes
Life's only borrowedChorus
"cause I still feel it's not over yet
What we've done you'll have to forget
Or all we'll reap is bitter regret[talkin' to my friend misfortune
Take me for a ride
How I wish that I could only
Give you back your life again]Darlin' - I wanna stay with you
'til the morning comes
And that last train rides
