

Never Found the Time

America

I never found the time
To see things quite through
I never found the time
To give them to you If living don't come easy
Don't stop your own voice
'Cause the worst part of living
Is havin' no choice Tell me a story
Tell it with your eyes
I'm gonna stop believin'
If I hear another lie
Drink some cold water
Your mouth's getting dry If I only had the time
To see things right through
I'd give up all my treasures
And send them to you Then livin' would seem easy
No lights and no noise
It is just me and my lady
And the echo of her voice Tell me a story
Tell it with your eyes
I'm gonna stop believin'
If I hear another lie
Drink some cold water
Your mouth's getting dry I never found the time
To see into my lady
And memories don't die
But with time become hazy I never found the time
To see into my lady
And memories don't die
But with time become hazy I never found the time
To see into my lady
And memories don't die
But with time become hazy I never found the time
To see into my lady
