

# The Answer

## Unkle

Here we are  
Burning up in our cars  
And in our hearts  
Better days  
Sleeping late with our headaches  
Perfect weather  
Congregate  
Lay in wait for an answer  
They're still waiting  
Grit your teeth  
The lucky taste as the day breaks  
The blind are leading the blind  
Better  
Better days with a headache  
Perfect weather

Xenon lights  
Dots go dashing the highways  
Nothing's moving  
Radiates  
Everything lasting for seconds  
Evaporated  
Lovers' lips  
Drinking late at the station  
Smiling faces  
Coming clean  
Wiping your face in whatever  
There's an answer  
Better  
Better days with a headache  
Perfect weather
