

Sexual Interlude

Shai

Sex... Sexual

Sex... Sexual

Sex... Sexual

Sex... Sexual

Tonight we share a night of ecstasy and sweet romance
I will make you feel so special if you give me half a chance
I respect your femininity oh so much
So prepare yourself for a night that can only be described
as sensuous... it will be

repeat chorus

We have been together for some time but now I feel
Your resistance to my persistence intensifies your sex appeal
I perspire with desire when I see your naked skin

This erotic moment brings up everything within oh baby

repeat chorus

You are mine... baby I am yours

I am yours, hey you are my baby

You are mind.and I think it's time

Come here baby... shhhh... don't say a word

Let your emotions do all the talking

Can you feel it

Can you feel it ...I can feel your love baby

Can you feel it... baby oh baby yea, yea, yea

Can you feel it, feel it, feel it, feel it

You look so good, baby

You don't have to go

repeat chorus
