

# Kiss of Life

## Friendly Fires

Kiss of life Rub that line out of the sand  
I can feel it closer  
Closer than you'll ever be Rub that line out of the sand  
I know you think it's over  
Staring out into the sea Don't let it go  
This could be so perfect  
Don't let it go  
If we hold onto it Rub that line out of the sand  
Right before the tide comes  
And washes you away from me Ooh, kiss of life  
Ooh, kiss of life Could you wave goodbye to sun  
The sea, the stars, the waves, the tide?  
The wails inside, your light has died  
But all you need is a kiss of life Rub that line out of the sky  
I can feel the night crawl  
A broken drum and tambourine Rub that line out of the sky  
I can see the clouds form  
Taking shape in front of me Don't let it go  
This could be so easy  
Don't let it go  
If we hold onto me Rub that line out of the sky  
Right before the sun falls  
Kiss of life Ooh, kiss of life  
Ooh, kiss of life  
Kiss of life Could you wave goodbye to sun  
The sea, the stars, the waves, the tide?  
The wails inside, your light has died  
But all you need is a kiss of life Could you wave goodbye to sun  
The sea, the stars, the waves, the tide?  
The wails inside, your light has died  
But all you need is a kiss of life Ooh, kiss of life  
Ooh, kiss of life  
Ooh, kiss of life  
Ooh, kiss of life A thousand butterflies, from your lips to mine  
A thousand butterflies, from your lips to mine  
A thousand butterflies, from your lips to mine  
A thousand butterflies, from your lips to mine Kiss of life  
Kiss of life  
Kiss of life

Kiss of life
