

# Summer's Love Song

## Clarensau

the sun, the sun will come out soon  
our feet will soak in the morning dew and summer's love song will play into our ears  
and summer's love song will be beautiful and clear so I'll sing of the morning,  
sing of the morning light like it may be the only light  
I'll sing and so the sun the sun will come out soon  
this I promise you  
and our pain I hope it leaves us soon  
please leave us soon and summer's love song will play into our ears  
and summer's love song will be beautiful and clear so I'll sing of the morning,  
sing of the morning light like it may be the only light  
I'll sing and oh we'll sing, oh we'll sing  
until the morning brings the light we need  
and oh we'll sing until our lungs give  
and then we'll sing until the darkness leaves and oh we'll sing, oh we'll sing  
until the morning brings the light we need  
and oh we'll sing until our lungs give  
and then we'll sing until the darkness leaves it's not easy, it's not easy  
we'll keep breathing  
it's not easy, it's not easy  
we'll keep singing through the night it's not easy, it's not easy  
we'll keep breathing  
it's not easy, it's not easy  
we'll keep singing through the night and oh, we'll sing, oh we'll sing  
we'll keep breathing  
and oh, we'll sing, oh we'll sing  
we'll keep singing though the night
